

 MEGA DIAMANT

# CODEX WIRE

High-performance diamond wire for cutting steel and reinforced concrete for the [construction](#) and [decommissioning](#) industries

Over 2,000 satisfied customers choose Mega Diamant products for their construction, dismantling, and decommissioning projects, worldwide.

Buildings / Industrial Facilities / Selective Demolition / Civil Infrastructure / Maritime Structures / Environmental Remediation / Power Plants / Structural Demolition / Subsea Structures / Offshore Platforms / Mining Closure and Rehabilitation / Oil and Gas Rigs / Aircraft Decommissioning / Pipelines / Wind Turbines / Nuclear Facilities / Railways ...

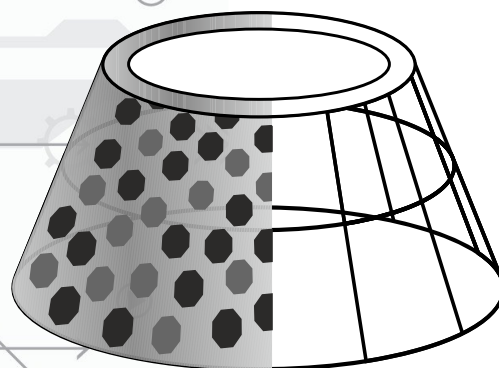

# CODEX WIRE

UNI EN 13236

The use of a specific diamond grit combined with the special conical shape of the bead enables fast and accurate cutting of even the most difficult materials. The protective elastomer coating ensures high standards of safety in the workplace and allows the tool to be fully worn without the need for remounting.

high cutting speed

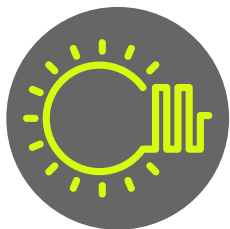

cutting accuracy

minimal vibrations

low noise level

low energy consumption

low water consumption

# We ship worldwide.
